STAGES COURTS

MAINTENANCE OF SKILLS FOR THE USE OF LIVE ANIMALS FOR SCIENTIFIC PURPOSES #2: EXPERIMENTAL PROJECTS, SEVERITY OF EXPERIMENTAL PROCEDURES (RODENTS)

In addition to specific training, the use of live animals for scientific purposes requires a continuous training of 3 days every 6 years.

This training day validates one day of continuing education to be included in the skills booklet.

📅 Dates : Voir le calendrier

📍 Lieu : Campus Pierre et Marie Curie – Paris (Jussieu)

€ Tarif : 450 €

Modalité : Distanciel Présentiel

GOALS

- have fundamental knowledge of the physiology of pain
- recognize the signs of pain and to adopt appropriate care and monitoring strategies
- be able to evaluate the degree of severity of an experimental procedure; assigning a procedure to a particular category
- know the 3R rule and the ethical device in animal research
- how to write a project authorization

PUBLIC & PRE-REQUISITE

Public

Technicians, engineers, researchers, teachers-researchers, doctoral students.

Pre-requisite

Basic knowledges in the use of live animals in scientific purposes .

PROGRAM

- pain, endpoints, euthanasia
- evaluation of the severity of an experimental procedure
- the 3R rule
- the ethical device in animal research
- project authorization

METHODS

- Lectures.
- Practical training.
- Teaching materials, bibliography and documentation are given to the participants.
